

COOKIES' TROJANS
(Continued from Page 1)
were conference guests. On record the Trojans seem to have a bit of a lead on the Rams, but we are hoping for a possible win.

The hundreds of Glades fans who rolled to Dowdy field at Hollywood to see Smith's fast Bulldog team play against the Rams, saw a very well played game, but came back much disappointed over the defeat of their favored Rams. It was more than noticeable that the col-

legiate officials were able to see game infractions in the Rams play, and took out limits on no severe penalties against the Bulldogs. What the Rams need is the former has been offered from official penalties.

A capacity bleacher crowd and standing room brought attendance up to at least five thousand fans, who shivered with the coolness of the night.

BARRY'S

DRAWER E. NEWBERRY, FLORIDA

"There's lots more to tell you... but someone else may want to use the PARTY LINE"

It's thoughtfulness like this that makes your party line neighbors thoughtful of you. It allows others to call and frees the line for incoming calls.

MANY of our customers desire different types of service which are not generally available now—such as individual line or two-party line service. We have a record of all such applications and we're working hard to provide the cables and control office equipment necessary to furnish the desired service as soon as possible.

thousand fans, who shivered. The extravaganza entertainment put on by the Golden Rams and Bulldog bands was indeed a fine spectacle, the best that the writer has seen during the past season. The Bulldogs have a large and capable band, well drilled, and know how to pour out the music, and present special numbers. The Rams band and the school cheering section was never more effective than at this game. Cole Bros circus wintering at Ojus, brought up 1000 circus seats to give more seating capacity for the fans. Surely a generous gesture.

The contesting teams were about equally matched in all respects, and the winners had no great edge over the Rams, except that they did, by the aid of penalties against the Rams, manage to get one more touchdown than the Rams. The Rams were knocking hard at the goal line for a tying touchdown when the game ended, the score 12 to 11 in favor of South Broward.

Broward scored in the first quarter and held the lead until the third when Tommy Williams hit pay dirt in the third to even up score to 6-6. In the fourth quarter the Bulldogs got a break on a kick off punt and advanced the ball well into Rams territory, and then by a series of fast, tricky plays got another count-off over the goal.

In this quarter the Rams did their best playing and took the lead in the last minutes of the game, biding strong for a tying score, only to have their efforts thwarted by time running out on them. It was a hard game for the Rams to lose as it finally effected their rating in the conference race.

Coch Ale's Blue Devils, of Pahokee, playing Largo, an out-conference team, finally won its first game of the season, by a score of 28 to 6. In the Indian River conference, undefeated Clewiston, fell before Melbourne by a score of 19 to 6. Other Friday night game scores are: Miami University, 27, Detroit University, 6; Orlando, 6, West Palm Beach, 6; Stuart, 15, Cocoa, 6.

ATLANTIC COAST LINE

proper field control and training practices.

This week's bulletin on the big party has this local reference. The Everglades Agricultural Experiment Station, Belle Glade, Fla., in a five years test averaged 1,884 pounds of beef per acre per annum, with highest yield of 2,088 pounds live weight (see page 300, Annual Report of Florida Agricultural Experiment Station, fiscal year ending June 30, 1948). This year includes the Belle Glade Experiment Station.

Those attending the Florida Farm tour sponsored by the Coast Line Railroad and other cooperating agencies on November 15 and 16 will have an opportunity to observe some of these demonstrations and to learn how they may establish water control for crops produced on their farms, even to the extent that "acres of dis-

monds" may be found in their community. They will have an opportunity to see thousands of acres of real mud "Tay Dirt" soil being opened up and put under water control; in fact all phases of farming and marketing of vegetable crops in that area will be observed on this tour.

This Farm Tour will cover the Moore Haven-Clewiston-Lake Harbor-Okechobee area. Headquarters will be the Clewiston Inn, Clewiston, Fla. Join this tour. Make your hotel reservations early.

Hunting Regulations Prescribed By State Game Commission

Thousands of Florida hunters are citing their guns in anticipation of the state's general hunting season which opens Nov. 22.

Opening and closing dates, by the State Game and Fresh Water Fish Commission, are the same in all districts for the first time in the state's history. The 56th day of the season will be open to hunting with Mousers, Tascoes and Fish Hooks thereafter.

Throughout the state the deer season on land and water will close Feb. 1, as will the season on land and water for squirrel, dove and turkey hunting.

Deer and turkey hunting will be banned in Alachua, Bradford, Clay, Hardee, Santa Rosa and Union Counties, and parts of Baker, Columbia and Suwannee Counties. No deer hunting will be permitted in Gilchrist and Hernando Counties, and hen turkeys cannot be taken anywhere in the state.

Daily bag limits are set at 1 buck deer with horns of not less than 5 inches; 2 wild gopher turkeys; 10 quail; 12 cat squirrels and 3 fox squirrels. The season bag limit will be 2 buck deer and 4 wild turkeys. Possession limit on all game is two day's bag.

Migratory bird hunters will be allowed to take doves and geese and cost every day from Nov. 23 to Jan. 7 and marsh hens every day from Oct. 1 to Nov. 30. The state season on doves is from Dec. 17 to Jan. 15.

Florida State To Have Several New Buildings

Plans for two skyscraper men's dormitories and a \$400,000 student union building for Florida State University have been announced here by President Oak S. Campbell. The buildings, plus an apartment of smaller units for fraternities, will be financed by self liquidating bonds, paid off by rents. This is part of the 50-year plan drawn up by President Campbell, and including a 15,000 seat athletic stadium.

Areas for these buildings as well as for the proposed stadium, have been set aside, and the city of Tallahassee is cooperating by planning drainage and utilities as well as steam clearance to make way for the property.

The two dormitories each will be 14 stories high, and located on the edge of a war-time housing development, now owned by the university.

Florida Farmer Increases Use Of Fertilizers

The manufacturing and mixing of fertilizers is a \$40 million business in Florida, according to the Florida State Chamber of Commerce.

The weekly business review issued by the chamber in its editorial division of the State Chamber reports the value of fertilizers at \$39,441,000, four times the value of the 1939 production in the state.

Latest detailed figures are for 1947 and show 34 plants employing 2,844 persons to whom they paid a total of \$5,100,000 in salaries and wages during 1947. Cost of materials and fuel amounted to \$26,007,000.

Animal fertilizers and fertilizing and corrective materials that are used are also included in this review.

Use of plant foods by Florida farmers and growers is estimated to be in order to produce the state's large fruit, vegetable and flower crops.

Florida has invested in recent years approximately 200,000 tons of phosphate fertilizers, 2,600 tons of phosphate, and 40,000 tons of nitrogen.

BEAN MARKET TAKES

(Continued from page 1)
Department of Agriculture.

The northern produce markets were hit by cold weather during the past week, closing them off from bean supplies, and as a result demand for Florida beans took a big jump, at prices that did not displease Florida growers. On Saturday and Sunday Black Valentines brought just a nickel under \$5, while other beans fluctuated between \$2.50 to \$4 the hamper.

Monday's markets saw a decline of 80 cents on the Black, but other grades showed slight decline. The bean movement all is constant from now on until the early crop is exhausted. The Pompano market will be open the coming week, as that Lake produce will be bucking supplies from that source.

Green corn came into the market picture on Monday, when Arthur Well, Ted Pope and several Pahokee growers brought in sweet corn and Tuspan, which found a ready market, most of it going to the Atlanta market. The opening price was \$4.50 for a five dozen crate or less. Up in Atlanta, Texas, always in great demand, and is more used in family trade than the yellow sweet corn types.

A meeting of Pahokee area farmers was called for Thursday night, for the purpose of discussing the subject of establishing a Farm Bureau branch, with a resident agent.

The past week papers of incorporation for the Pelican Bay Co-operative of Pahokee, were sent to Tallahassee for approval. This group is made up of GI veterans, who will endeavor to get a house on bay lands near the new airport on the 12, Board. Land will be leased to the 50 or more members as their needs may indicate, including some leased lands over in Martin County. The Board of directors is composed of L. W. Meredith, Eugene Pickens, W. M. Johnson, E. R. Rice and Joe Alderman.

With the present church structure project under way, officials found that changes would be necessary in the corporate structure and Jack O. Johnson was directed to prepare amendments to the charter for court approval. Such papers were presented to Judge C. E. Chillingworth in Circuit court, Monday, and he gave official judicial approval of the same.

The name of the corporation was changed to Community Methodist church, Inc., with the right to hold a maximum of \$100,000 in real estate. Outside the incorporation the church also has around a \$200,000 loan from the Livingston Foundation, of Jacksonville, which was given at the time of the erection of the present church edifice, to be repaid at the convenience of the church.

Rev. Leonard Vandewater, the pastor, states that the rate on which the work on the new sanctuary is progressing, that earlier stone laying ceremonies may be held in the month of February. At this event, it is hoped and expected that Bishop Rhy-Gwyn-Cot Jacksonville, will be present to conduct the ceremonies and deliver the sermon of the day.

Florida Editors To Have Convention At Naples Beach

The coming week end will see the cohorts of the Florida Press Association gathering at Naples for the fall meeting, and predictions are that it will be one of the largest attended and best programmed sessions in the history of the body.

To aid attendance the management of the Trailways Motor Co. is providing free passage to press people from all over the state by means of special buses from Pensacola, Tallahassee and Lake City down over its central state routes. Besides the program of business sessions the Naples and Collier county editors have arranged many side attractions, in the way of fishing, bathing and tour to the Indian reservation.
